TIRANA COMMUNIQUÉ

As the **Bologna Process tools** have developed throughout the last decade, we mandate the BFUG to work on their **future-proof development, dissemination and possible expansion**. To support the implementation of the ECTS, including learning outcomes, we invite the BFUG to review the ECTS Users' Guide 2015 by 2027, to strengthen its key features and adapt it to current developments, including micro credentials.

The application of the ESG promotes trust and transparency within and between higher education systems and facilitates accountability and enhancement. To keep them in line with ongoing developments, challenges and expectations, we invite the authors of the **ESG** to propose a **revised version** by 2026 to the BFUG, to be adopted by us at our 2027 Ministerial conference, as well as an adjustment, where required, of the **European Approach for Quality Assurance of Joint Programmes**. We will also promote **more robust and transparent quality assurance of transnational education delivered worldwide, in line with the ESG**, to protect the interests of students.

The primary authors are ENQA, ESU, EUA and EURASHE - the E4 Group, in cooperation with Business Europe, EI and EQAR.

TIRANA COMMUNIQUÉ

Furthermore, we are committed to countering diploma and **accreditation mills**, fraudulent qualifications and academic cheating services, made more accessible through developments in the digital field. We ask the BFUG to make good use of the work of the ETINED platform and the ENIC-NARIC networks to address these challenges and protect academic integrity.

Council of Europe Platform on Ethics, Transparency and Integrity in Education (ETINED).
