Albanian HE System

Higher education system in Albania is based on the constitution and the Law 80/2015 of higher education and scientific research in the higher education institutions,
in which higher education is defined as a ***good and public responsibility***.

HE system has the mission:

- a) to create, develop, transmit and protect knowledge*** through teaching, research, as well as to promote and develop the arts, physical education and sports;
- b) to train senior specialists and prepare young scientists***, in accordance with the development priorities of the country;
- c) to provide equal opportunities*** to benefit from higher education and lifelong learning;
- d) to contribute*** to the economic, social, national security and cultural development at ***national and regional levels***;
- e) to support the strategic priorities*** and development interests of the country;
- f) to integrate teaching with scientific research***;
- g) to promote international cooperation*** in the field of higher education.

Albanian HE System

The authorities/bodies in the higher education system in Republic of Albania are:

- Ministry responsible for the higher education – ***Ministry of Education and Sports (MoES)***;
